

Article 6 Support Facility

Virender Kumar Duggal

Principal Climate Change Specialist

Article 6 Support Facility - Objective

The Article 6 Support Facility will provide technical, capacity building and policy development support to ADB's developing member countries (DMCs) to help them to identify, develop and pilot mitigation actions, under the framework of Article 6 of the Paris Agreement.

Through this Facility, ADB will encourage innovation in the development of mitigation actions in DMCs, contribute to achieving a critical mass of expertise, draw lessons learned from pilot activities, and enhance DMCs' ability to contribute to international negotiations and enhance their preparedness to operationalize Article 6 of the Paris Agreement.

Article 6 Support Facility: Overview

- **Continuation of ADB's ongoing Carbon Market Program**
- **Open to all of ADB's developing member countries in Asia and the Pacific**
- **Initial Budget - US\$4 million**
- **Funded by ADB, Government of Germany and the Swedish Energy Agency**
- **Initial Tenure: Three years 2019 – 2021**

Article 6 Support Facility: Output 1

Enhance DMC's capacity to identify and assess mitigation actions under Article 6

- Options for using new mechanism(s) under Article 6
- Identifying and designing carbon pricing policy measures
- Developing appropriate institutional structures
- Facilitating private and public sector involvement
- Operationalizing environmental integrity
- Developing mitigation actions for generating ITMOs
- Integrating sustainable development benefits in mitigation actions

Article 6 Support Facility: Output 2

Support DMCs in piloting mitigation actions under Article 6

- Identify and evaluate options for pilot mitigation actions in consideration of national climate plans and policies
- Provide technical support for the design and implementation of pilot activities under Article 6

Article 6 Support Facility: Output 3

Strengthen DMC's capacity, systems and infrastructure to undertake robust accounting and reporting of mitigation outcomes

- Corresponding adjustments
- Ensuring environmental integrity
- Reporting on the issuance, transfer, and retirement of mitigation outcomes
