NORTH AMERICA CLIMATE SUMMIT 2022

WHERE NORTH AMERICAN CARBON MARKETS MEET TO DRIVE CLIMATE ACTION FORWARD

SUMMIT GUIDE

Organiser:

In Collaboration with:

Main Partners:

www.northamericaclimatesummit.com
MEMBER ORGANISATION
IETA’s broad representation ensures that sectoral and regional points of view are shared and taken into account.

IETA members come from all corners of the world, representing every existing carbon market as well as those under development. They include industrial operators, verification bodies, project developers, investors, carbon standards, traders, brokers, lawyers & consultants. Our work is undertaken through a framework of permanent and ad hoc working groups.

STRATEGIC INITIATIVES
IETA is a recognised observer to the UNFCCC. IETA members may apply for accreditation to various climate negotiations as part of the IETA delegation. We maintain strong partnerships with World Bank, OECD, IEA, IATA & other multilateral organisations.

Our affiliate, the International Carbon Reduction and Offset Alliance (ICROA), promotes a code of best practice for voluntary offset providers to assure quality service in carbon management and offsetting.

The Business Partnership for Market Readiness (B-PMR) holds business-to-business dialogues in new carbon markets to share best practices. The B-PMR aims to turn policy vision into corporate action and commercial success.

Markets for Natural Climate Solutions is a new IETA initiative working to create global markets for carbon credits generated from Natural Climate Solutions (NCS). Its mission is to maximise private sector investment in NCS to ensure it plays the fullest role possible in delivering the goals of the Paris Agreement.

INSIGHTS & INFORMATION
We closely monitor market developments. We share key analysis, policy and market design information with our members as they happen. IETA members learn about new opportunities and understand the impact on their business.

REPUTATION & ACCESS
IETA is respected as a credible, constructive and knowledgeable advocate. We are invited to participate in dialogues, hearings and stakeholder consultations where our input is valued.

NETWORKING
IETA connect our members with top leaders in business, government and international organisation. They benefit from direct engagement with the policy makers who drive carbon markets worldwide.

SHAPING POLICY
IETA’s Working Groups tackle issues as they arise, producing position papers that reflect our various members’ collective views. Our recommendations gain respect due to their broad business support.

GLOBAL REACH
Each year we offer a wide range of global events, regional carbon forums in Asia, Africa, Europe, Latin America and North America plus a series of roundtable discussions. Members gain insights, show leadership and meet business partners - and enjoy preferential rates!

Dear friends and colleagues

For those who can attend in person, I’m sure you will agree it’s so good to be back together again! For those participating virtually, thanks for joining and you are very welcome!

It is fair to say that Russia’s invasion of Ukraine has changed the world. It rocked all markets, including those devoted to the low-carbon transition. Only last week, EU energy ministers gathered in Brussels to hash out a set of emergency measures aimed at taming the effect of soaring energy prices. In the UK the new Prime Minister has opened the doors to fracking and opened the nation’s offshore oil fields up to new drilling. A review has also been launched into how the country can meet its net zero ambition in a ‘pro-business and pro-growth’ way. It will be interesting to see the outcome!

Whilst here in the United States, there is a new climate and inflation plan to stimulate climate action across the country – setting the stage for even stronger business engagement as companies leverage the public investment. Encouragingly, it opened the door for the voluntary carbon market and on this note the Integrity Council for the Voluntary Carbon Market (IC-VCM) recently issued three documents for public consultation to create a new “threshold standard,” to provide more clarity to the market on the best credit types for the VCM.

There is so much this year’s summit could cover but we have decided to focus on some hot topics which I’m sure will grab your attention., We will discuss what climate leaderships looks like, take stock of carbon policy and market developments and outlooks across the US, Canada and Mexico along with cross-cutting sessions on voluntary markets, digital innovations and natural/geo-engineered climate solutions.

We hope you enjoy the Summit, and look forward to catching up with you!

Dirk Forrister
PROGRAM OVERVIEW

LEGEND

- Plenary
- Deep Dive
- Closed Door Invite Only Meeting
- Side Event Session
- Social Event

All times in EDT

TUESDAY 20 SEPTEMBER – PRE-DAY

09:00  •  Pre-registration & Welcome Coffee
05:00  •  Hotel Lobby 3rd Floor & Carbon Market Garden 4th Floor

09:30  •  Closed Door Invite Only Meeting - UMD-IETA Article 6 Economic Analysis Workshop
05:00  •  Gershwin Room 2

10:00  •  Closed Door Invite Only Meeting - IETA NCS & US Working Group Meeting
11:30  •  Imperial Room

11:45  •  Closed Door Invite Only Meeting - IETA DCM Task Force Meeting
01:15  •  Imperial Room

12:30  •  Networking Lunch
02:00  •  Carbon Market Garden

01:30  •  Open Side Event Session 1 Organised by Xpansiv - Key Trends in Carbon Market Trading
02:45  •  Imperial Room

03:00  •  Closed Door Invite Only Meeting - ICROA EC Meeting
05:00  •  Imperial Room

05:00  •  North America Climate Summit Welcome Reception
07:00  •  New York Atrium, 9th Floor

WEDNESDAY 21 SEPTEMBER – DAY 1

08:00  •  Registration & Welcome Coffee
08:30  •  Hotel Lobby 3rd Floor & Carbon Market Garden 4th Floor

08:30  •  Welcome Address & Opening Armchair
09:00  •  Gershwin Room 1 & 2

09:00  •  Plenary 1 - CEO Roundtable: What Does Climate Leadership Look Like in 2022?
10:00  •  Gershwin Room 1 & 2

THURSDAY 22 SEPTEMBER – DAY 2

08:30  ●  Registration & Welcome Coffee
09:00  ●  Gershwin Room 1 & 2  Join Online

09:00  ●  In Conversation with - G7 Climate Club Proposal: Promise of Increased Ambition & Protecting Competitiveness?
09:30  ●  Gershwin Room 1 & 2  Join Online

09:30  ●  Plenary 4 – Power Companies, The Clean Energy Transition & Value of International Cooperation
10:30  ●  Gershwin Room 1 & 2  Join Online

10:30  ●  Coffee Break
11:00  ●  Gershwin Room 1 & 2  Join Online

11:00  ●  Side Event Session 8 Organised by Carbon Finance Labs - Innovation in Removals and Digital Carbon Tools: Empowering Demand from the $6 trn Fast Moving Consumer Goods Market
12:00  ●  Gershwin 1 Room  Join Online

11:00  ●  Deep Dive 5 - Financial Institutions, Net Zero and Carbon Markets
12:00  ●  Gershwin 2 Room  Join Online

12:00  ●  Short Break
12:15  ●  Gershwin 1 Room  Join Online

12:15  ●  Deep Dive 6 - Net Zero Markets for Agriculture & Forests
01:00  ●  Gershwin 1 Room  Join Online

12:15  ●  Deep Dive 7 - World Café Workshop: Roundtable on the VCM
01:45  ●  Gershwin 2 Room  Join Online

01:00  ●  Networking Lunch
02:15  ●  Gershwin Room 1 & 2  Join Online

01:15  ●  Side Event Session 9 Organised by SustainCERT - Discussion on Digital Verification, Changing Roles & Principles for Best Practice
02:00  ●  Gershwin 1 Room  Join Online

02:15  ●  Deep Dive 8 - Carbon & Competitiveness: Plugging the Leak with Border Carbon Adjustments (BCAs)
03:00  ●  Gershwin 1 Room  Join Online

02:15  ●  Deep Dive 9 - Capturing the Potential of Carbon Capture Utilisation and Storage (CCUS) / Direct Air Capture (DAC)
03:00  ●  Gershwin 2 Room  Join Online

03:00  ●  Coffee Break
03:30  ●  Gershwin Room 1 & 2  Join Online

03:15  ●  Plenary 5 - Digital Climate Assets: Developing an End-to-End Digital Climate Market
04:15  ●  Gershwin Room 1 & 2  Join Online

04:15  ●  Short Break
04:30  ●  Gershwin Room 1 & 2  Join Online

04:30  ●  Plenary 6 - Convergence Between Compliance and Voluntary Markets & Closing Remarks
05:30  ●  Gershwin Room 1 & 2  Join Online

* Program subject to updates
All times in EDT
TUESDAY 20 SEPTEMBER – PRE-DAY

09:00  ● Pre-registration & Welcome Coffee
05:00  ● Hotel Lobby 3rd Floor & Carbon Market Garden 4th Floor

09:30  ● Closed Door Invite Only Meeting - UMD-IETA Article 6 Economic Analysis Workshop
05:00  ● Gershwin Room 2

10:00  ● Closed Door Invite Only Meeting - IETA NCS & US Working Group Meeting
11:30  ● Imperial Room

11:45  ● Closed Door Invite Only Meeting - IETA DCM Task Force Meeting
01:15  ● Imperial Room

12:30  ● Networking Lunch
02:00  ● Carbon Market Garden

01:30  ● Open Side Event Session 1 Organised by Xpansiv - Key Trends in Carbon Market Trading
02:45  ● Imperial Room [Join Online]

This session will explore the latest advances in the voluntary carbon market through the lens of the spot markets, futures markets, and associated market data and analytics. New standardized benchmarks, basis trading, and other tactics and tools will be discussed to enable market participants to better navigate this rapidly evolving market.

Presenters:
Peter Keavey, Managing Director - CME Group
Andy Bose, Head of XSignals - Xpansiv

03:00  ● Closed Door Invite Only Meeting - ICROA EC Meeting
05:00  ● Imperial Room

05:00  ● North America Climate Summit Welcome Reception
07:00  ● New York Atrium, 9th Floor
DETAILED PROGRAM – DAY 1 – WEDNESDAY 21 SEPTEMBER

WEDNESDAY 21 SEPTEMBER – DAY 1

08:00  🟡 Registration & Welcome Coffee
08:30  📍 Hotel Lobby 3rd Floor & Carbon Market Garden 4th Floor

08:30  🟡 Welcome Address & Opening Armchair
09:00  📍 Gershwin Room 1 & 2 [Join Online]

Welcome Address & Facilitator:
Dirk Forrister, President & CEO - International Emissions Trading Association (IETA)

Opening Armchair:
🔹 Liane Randolph, Chair - California Air Resources Board (CARB)
🔹 Fred Krupp, President - Environmental Defense Fund (EDF)

09:00  🟡 Plenary 1 - CEO Roundtable: What Does Climate Leadership Look Like in 2022?
10:00  📍 Gershwin Room 1 & 2 [Join Online]

Despite today's geopolitical and socio-economic challenges, climate and net zero ambition is not retracting. Strong and committed corporate climate leadership is more important than ever. Join this Roundtable navigating recent, monumental climate policy and market pieces, including the US Inflation Reduction Act and Canada's proposed Oil & Gas Emissions Gap. What does this mean for business climate operations, investments? Hear from corporate changemakers in the climate sphere as they explore what it means to be a climate leader in 2022 and navigate the decarbonization journey ahead.

Moderator:
Dirk Forrister, President & CEO - International Emissions Trading Association (IETA)

Speakers:
🔹 Vicki Hollub, CEO - Occidental Petroleum
🔹 Jakob Stausholm, CEO - Rio Tinto Group
🔹 Roger Martella, CSO - GE

10:00  🟡 Coffee Break
10:30  📍 Carbon Market Garden

10:30  🟡 Plenary 2 - North America Carbon Markets Round-Up: Trends and Outlooks
11:45  📍 Gershwin Room 1 & 2 [Join Online]

Join a panel of regulatory experts who are in the trenches of carbon pricing and market design activity. Hear from federal and sub-national government and NGO leaders across jurisdictions. Leave with a better grasp of the most impactful compliance carbon regimes, what's in store through 2023, as well as how these North American market models & experiences are informing – or at least impacting – similar global trade/government efforts.

Moderator:
🔹 Katie Sullivan, Managing Director - International Emissions Trading Association (IETA)

Speakers:
🔹 Bev Yee, Deputy Minister - Alberta Environment and Parks, Canada
🔹 Liane Randolph, Chair - California Air Resources Board (CARB)
🔹 Diana Guzman, Director Climate Change – SEMARNAT, Mexico
🔹 Craig Ebert, President - Climate Action Reserve (CAR)
🔹 Justin Johnson, Partner - MMR
11:45  • Short Break
12:00

12:00  • Deep Dive 1 - Analysts & Traders Roundtable: North America
12:45

Building off the earlier Plenary, which sets the scene on North American carbon policy moves, join this special Roundtable to delve into the latest North American market pricing, dynamic, forecasts and looming risks through 2023. The session will provide unique insights and pricing data across the disparate North American compliance and voluntary markets’ landscape.

Moderator:
Stephen McComb, Senior Vice President - IncubEx

Speakers:
Bo Qin, Carbon Markets Lead - BloombergNEF
Jennifer Molssac, Director of Market Analysis - ClearBlue Markets
Harry Horner, Strategy Lead – cCarbon
Matthew Williams, Senior Analyst, Emissions and Clean Energy - S&P Global Platts

12:00  • Deep Dive 2 - International Carbon Market and Article 6 Cooperation: Moving from Concept to Practice
12:45

Operationalizing Article 6 mechanisms has become more relevant in climate discussions since the agreement reached by Parties at COP26. Research demonstrated that cooperative action can significantly reduce the cost of implementation and increase ambition. The urgency of having a broader set of tools motivates us to explore and put into practice various bilateral and multilateral instruments, such as Climate Action Teams (CATs) and carbon clubs. These mechanisms will promote the transfer of large-scale high-integrity ITMOS, capacity building, mutual trust and exchange of knowledge.

Introductory Remarks:
Dirk Forrister, President & CEO - International Emissions Trading Association (IETA)
Maisa Rojas, Minister of the Environment - Chile

Moderator:
Angela Churie, Executive Vice President for Impact - Environmental Defense Fund (EDF)

Speakers:
Suzi Kerr, Senior Vice President & Chief Economist - Environmental Defense Fund (EDF)
Sha Yu, Senior Scientist, Pacific Northwest National Laboratory & University of Maryland
Karl Hausker, Senior Fellow - World Resource Institute (WRI)

12:45  • Networking Lunch
02:00  • Carbon Market Garden
01:00 Side Event Session 2 Organised by Climatetrade - Using Technology to Assist in Reaching Decarbonization Objectives and Finding a Pathway to Net Zero

Join us for panel discussion on the role of technology in supporting the financial industry in meeting net zero emission targets. The session will explore how technology can be leveraged to reach beyond net zero targets through customer engagement. The speakers will discuss how a diversity of technologies are critical and provide perspectives from the financial and environmental asset sectors.

Moderator:
ฤษี Michael Green, Director of Climate & Energy Policy - American Sustainable Business Network (ASBN)

 Speakers:
ฤษี Francisco Benedito, CEO - ClimateTrade
ฤษี Benjamin Gerber, CEO - M-RETS (Midwest Renewable Energy Tracking System)
ฤษี Marta Aisa, Head of Responsible Banking - Banco Santander
ฤษี Clara Arrocho, Global Cards Product Manager - Banco Santander

01:00 Side Event Session 3 Organised by Bayer - From Seed to Fork: Scaling up Sustainability in the Supply Chain

Today’s consumers are requesting more information about how food is grown. Bayer and Perdue Farms, two agricultural industry leaders, are focusing on increasing sustainability in the food chain. Bayer will share about the new digital platform, ForGround, helping farmers adopt regenerative practices, while partnering with climate-minded companies.

Welcome Remarks:
شروط Gabriela Burian, Global Head of Multi-Stakeholder Partnerships - Bayer

Moderator:
شروط Katie Sullivan, Managing Director - International Emissions Trading Association (IETA)

Firestarter:
شروط David Wilcox, Founder - ReachScale
شروط Alice Korngold, Author & CEO - Better World

Speakers:
شروط Leo Bastos, Senior Vice President & Head Global Commercial Ecosystems - Bayer
شروط Perry Aulie, Senior Vice President - Perdue Farms
شروط Matthew Reddy, Senior Private Sector Specialist - Global Environmental Facility (GEF)
شروط Dustin Madison, Director of Operations & Agronomy - Engel Farms

01:00 Side Event Session 4 Organised by Flowcarbon - Tokenization of Carbon Credits in the VCM: Benefits and Key Considerations

This session will explore the benefits and key considerations associated with creating tokens that represent credits from the VCM and bringing them onto the blockchain. The discussion will evaluate the benefits offered by proponents, including scaling the VCM and introducing greater transparency and liquidity. It will also address key questions to consider regarding buyer due diligence and market regulation.

Moderator:
شروط Dana Gibber, Co-Founder & CEO - Flowcarbon

Speakers:
شروط Michael Dreibelbis, Counsel - Latham & Watkins
شروط Sarah Leugers, Chief Strategy Officer - Gold Standard
شروط Phil Fogel, Chief Blockchain Officer - Flowcarbon
شروط Benoit Clement, Director of Financial Innovations – Verra
02:00  In Conversation With Ambassador Catherine Stewart, Government of Canada

Gershwin Room 1 & 2  

Interviewer:
Lisa DeMarco, Chair - International Emissions Trading Association (IETA)

Interviewee:
Catherine Stewart, Climate Change Ambassador - Government of Canada

02:30  Plenary 3 - Voluntary Markets: A Stepping Stone on Pathway to Net Zero

Gershwin Room 1 & 2  

Based on new data from Ecosystem Marketplace, in 2022 the Voluntary Carbon Market (VCM) has soared to a record-breaking $2 billion in market value. Growth continues to be fueled by an acceleration in corporate and government net zero commitments. Two new global initiatives such as Integrity Council for the VCM (IC-VCM) and the VCM Integrity Initiative (VCMIi) have been launched to scale the market while enhancing transparency and integrity. Hear from experts as they explore the major developments and future outlooks for the VCM in a Paris-aligned world.

Moderator:
Andrea Abrahams, Managing Director - International Carbon Reduction and Offset Alliance (ICROA)

Scene Setter:
Stephen Donofrio, Managing Director - Ecosystem Marketplace

Speakers:
Sonja Gibbs, Managing Director and Head of Sustainable Finance, Institute of International Finance (IFF) & Board Member, Integrity Council for the Voluntary Carbon Market (ICVCM)
Lydia Sheldrake, Director of External Affairs - Voluntary Carbon Markets Integrity Initiative (VCMIi)
David Antonioli, CEO - Verra
Brennan Spellacy, CEO - Patch
Francisco Benedito, CEO - ClimateTrade

03:00  Coffee Break

04:00  Deep Dive 3 - Canada Carbon Deep Dive

Gershwin 1 Room  

Bold action is being taken by Canadian legislators on climate. Federally, the Government is churning-out ambitious measures linked to its March 2022 “Emissions Reduction Plan” to help reach its 2030 NDC. Provinces are establishing their own pricing and non-pricing climate policies while navigating options that better enable markets to support corporate net zero targets and drive finance into NETS/removals. Join this session to get the latest scoop from policy-makers and corporates who are trying to manage and invest across the chronically evolving landscape.

Moderator:
Chelsea Bryant, Managing Director, Global Markets & Strategy - Radicle

Opening Remarks:
George Heyman, Minister of Environment and Climate Change Strategy – Government of British Columbia, Canada

Speakers:
Kate Rich, Assistant Deputy Minister - Alberta Environment & Parks, Canada
Pete Sheffield, Vice President & Chief Sustainability Officer - Enbridge
Kai Alderson, Partner - Fasken
Jackie Mercer, Manager, Offsets and Emissions Trading - Environment and Climate Change Canada (ECCC)
04:00  ● Deep Dive 4 - Where are Market & Tech Innovations Leading Us?
04:45  Gershwin 2 Room  Join Online

Advanced technology, market and financial innovation will prove essential to help unlock and scale climate finance into measurable, credible climate projects. In recent months, there has been a swell of business-driven novel “climate” technologies and products being deployed or piloted across sectors, all with the mission to support transparent and scaled action in pursuit of meaningful net zero pathways. This session will hear from business innovators and entrepreneurs who are on the frontlines of these frontier technologies.

Moderator:
& Rick Saines, Managing Director - Pollination

Speakers:
& Rima Qureshi, Executive Vice President and Chief Strategy Officer - Verizon
& Allister Furey, Co-Founder & CEO - Sylvera
& Renaud Bettin, Vice President Climate Action - Sweep
& Russell Karas, Head of Carbon Market Development - Xpansiv
& Carlos Silva, Senior Head, Science Team – Pachama

04:45  ● Short Break
05:00

05:00  ● Side Event Session 5 Organised by Verra - Catching the Wave of Transformation in the Voluntary Carbon Market
06:00  Gershwin 1 Room  Join Online

Verra is engaging with the current transformation in the VCM by improving quality, facilitating the ambition of the Paris Agreement, developing new methodologies, introducing early project financing plans, exploring possibilities in crypto, enhancing social and environmental safeguards and aligning credit use with the mitigation hierarchy.

Moderator:
David Antonioli, CEO – Verra

Panelists will feature Senior Verra Executives

05:00  ● Side Event Session 6 Organised by Sweep - Why is Offsetting a Term of the Past and Contribution to the Future?
06:00  Gershwin 2 Room  Join Online

Although a semantic shift has taken place between offsetting and contribution, the distrust of carbon credits has delayed the change in mindset that must accompany this shift. That’s how we’ll finance and achieve global carbon neutrality. So, how to do contributions right: Join key players to learn from their visions and experiences of building a meaningful climate project portfolio and move away from carbon neutrality claims.

Moderator:
& Renaud Bettin, Vice President Climate Action - Sweep

Speakers:
& Brad Schallert, Director, Net Zero - Winrock International
& Time Juliani, Director, US Corporate Climate Engagement – WWF US
& Salah Said, Head of Sustainability - Klarna

As the voluntary carbon market continues to scale, market participants need documentation to transact in a safe and efficient manner and effectively manage risks. IETA will release its framework agreement for secondary market transactions in verified carbon credits. The document contains the general trading terms and conditions needed for robust, transparent and liquid markets in verified carbon credits.

   Carbon Market Garden

09:00  In Conversation with - G7 Climate Club Proposal: Promise of Increased Ambition & Protecting Competitiveness?
   Gershwin Room 1 & 2
   The concept of “Climate Clubs” is gaining traction. Initially popularized by Nobel Prize-winning economist William Nordhaus in 2015, the idea has recently risen to prominence when – upon suggestion by the Germany Presidency – G7 countries announced they would “work towards establishing an open, cooperative international ‘Climate Club’ consistent with international rules by the end of 2022”. This Armchair conversation will explore the proposal for a Climate Club, looking at the road ahead and analyzing implications for carbon pricing, markets and cooperation.

   Moderator:
   Stefano De Clara, Head of Secretariat - International Carbon Action Partnership (ICAP)

   Speakers:
   Dirk Weinreich, Head of Division, Climate Legislation and Emissions Trading - Federal Ministry for Economic Affairs & Climate Action, Germany
   Kelley Kizzier, Fellow - Bezos Earth Fund
   James Cameron, Senior Advisor, Pollination Foundation & Fellow, International Emissions Trading Association (IETA)

09:30  Plenary 4 – Power Companies, The Clean Energy Transition & Value of International Cooperation
   Gershwin Room 1 & 2
   Power companies are leading the clean energy transformation by reducing emissions, deploying clean resources, and developing innovative technologies. The Infrastructure Investment and Jobs Act and the Inflation Reduction Act provide a historic level of funding to accelerate these efforts and put the U.S. in line to reach its Paris Agreement goals. Collaborating with international partners, is more important than ever to support progress on a global scale. This panel will discuss how this sector is the centerpiece of decarbonization.

   Welcome Remarks & Facilitator:
   Eric Holdsworth, Director, Climate Programs - Edison Electric Institute (EEI)

   Key Addresses:
   Elliot Diringer, Senior Policy Advisor, Office of the Special Presidential Envoy for Climate - U.S. Department of State
   Ralph LaRossa, President & CEO - PSEG

   Moderator:
   Nat Keohane, President - Center for Climate and Energy Solutions (C2ES)

   Speakers:
   Chris Kopecky, Senior Vice President - Capital Power
   Paul Freedman, Executive Vice President & General Counsel - AES
   Gabrielle Walker, Founder - Rethinking Removals

<td>The financial sector has seen a renewed interest in carbon markets. Stakeholders ranging from banks, hedge funds to family offices and foundations are exploring new investment opportunities, and the use of high-integrity offsets to compensate for portfolio emissions, especially as recent developments from the US Securities and Exchange Commission (SEC) look to impose more stringent reporting guidelines and regulatory frameworks. Join us to hear from leaders across the financial ecosystem as they explore ground-breaking developments and future outlooks.</td>

Carbon markets and finance hold great promise to accelerate decarbonization and contribute to ‘beyond value chain’ net zero claims and commitments towards 2050. Offsets and ‘insets’ can provide long-term financial incentives for farmers, ranchers, greenhouse operators and foresters to transition towards lower carbon activities. This session will feature leaders across the agriculture and forestry carbon space - so you can understand “what to watch” and “what to avoid” across this highly competitive and active space.

**Opening Remarks & Moderator:**
Karen Haugen-Kozyra, Founder - Viresco Solutions

**Introductory Address:**
Sean Babington, Senior Advisor, Office of the Secretary - U.S. Department of Agriculture

**Discussants:**
Matt Nespeca, Head of ESG and New Business Models - Bayer Environmental Science
Chris Vance, Environment Impact Leader - Pure Life Carbon
Michelle Nutting, Director, Ag & Env Sustainability - Nutrien
Max DuBuisson, Head of Sustainability Policy & Engagement – Indigo Ag

Join us for a solutions-driven roundtable event on the VCM, hosted by ICROA and exploring the following themes: VCM and Paris Framework, VCM and Claims, VCM and Integrity. Each theme will be discussed under the Chatham House rule in small groups at several roundtables. The objective is for the various groups to come up with concrete proposals for scaling credible voluntary action.

**Facilitators:**
Jeremy Manion, Managing Director of Carbon Markets - Arbor Day Foundation
Naomi Swickard, Head of Public Affairs - South Pole
Angela Foster-Rice, SVP Strategic Business Development - Everland
Sandeep Roy Choudhury, Director - VNV Advisory
Ana Haurie, Co-Founder & CEO - Respira International
Saskia Feast, Managing Director, Global Client Solutions - Climate Impact Partners

In this session we explore blueprints for a digital verification and delve into the implications of digitalization for all stakeholders involved. How are their roles changing? How can we best leverage digital innovations to increase quality and integrity in carbon markets? Let’s discuss and contribute to the ongoing conversation on digital verification.

**Moderator:**
Marion Verles, CEO – SustainCERT

**Speakers:**
Marley Gray, Principal Architect – Microsoft Cloud for Sustainability
Jonathan Shopley, Managing Director of External Affairs – Climate Impact Partners
Carlos Silva, Remote Sensing Scientist Team Lead - Pachama
Lucas Belenky, Climate Change Consultant - World Bank
02:15  Deep Dive 8 - Carbon & Competitiveness: Plugging the Leak with Border Carbon Adjustments (BCAs)
03:00  Gershwin 1 Room  Join Online

As the EU prepares for its approved Carbon Border Adjustment Mechanism (CBAM) to become operational by 2026, the US and Canada are engaging in discussions to develop their own BCA mechanisms to shore up carbon leakage and ensure domestic competitiveness. Hear from experts as they investigate the current state of BCA activity across these regions along with the key political, technical, and legal challenges ahead.

Moderator:
à Tom Lawler, Washington Representative - International Emissions Trading Association (IETA)

Speakers:
à Billy Pizer, Vice President, Research and Policy Engagement - Resources for the Future (RFF)
à James Connaughton, CEO, Nautilus Data Technologies & Co-Chair, CLC Center for Climate and Trade
à Cedric De Meeus, Head, Group Public Affairs - Holcim
à Theresa Wildgrube, Senior Advisor - International Carbon Action Partnership (ICAP)

02:15  Deep Dive 9 - Capturing the Potential of Carbon Capture Utilisation and Storage (CCUS) / Direct Air Capture (DAC)
03:00  Gershwin 2 Room  Join Online

As climate ambition strengthens amongst governments and corporates, increased demand for CCUS/DAC technologies has created a flurry of unprecedented activity and innovations across the removals ecosystem. However, despite advancements in policy, technology, and finance in the removals market, the technology faces significant hurdles before it can be scaled to its full potential. Hear from a panel of experts on the rapidly changing regulatory environment, incentive structures, and market solutions that look to shape the future of carbon capture and storage.

Moderator:
à Stefano De Clara, Head of Secretariat - International Carbon Action Partnership (ICAP)

Speakers:
à Arthur Lee, Principal Advisor, Corporate Strategy and Sustainability - Chevron
à Jean-Philippe Brisson, Partner & Global Co-Chair, Environmental, Regulation,Transactions Practice - Latham & Watkins
à Anthony Cottone, Senior Director Sales & Marketing - Oxy Low Carbon Ventures
à Kel Coulson, Policy and Engagement Lead - Carbon Engineering

03:00  Coffee Break
03:30  Carbon Market Garden

03:15  Plenary 5 - Digital Climate Assets: Developing an End-to-End Digital Climate Market
04:15  Gershwin Room 1 & 2  Join Online

Mandatory climate disclosures are now on the horizon in the U.S. after the SEC unveiled a long-anticipated climate disclosure rule making proposal that could lead to a requirement for corporates to disclose their greenhouse gas emissions and, in some cases, emissions throughout their entire value chains. This panel will evaluate how technology is being deployed to facilitate corporate footprinting and how the tokenization of Digital Climate Assets is helping corporates achieve their net zero targets.

Moderator:
à Brett Orlando, Senior Advisor - International Emissions Trading Association (IETA)

Speakers:
à Dana Gibber, CEO - Flowcarbon
à Sebastien Cross, Co-Founder - BeZero
à Marcelo Labre, CEO - Viridios AI
à Nico van Aelstyn, Partner - Sheppard Mullin
An ever-growing number of sectors and regions worldwide are now covered by compliance market mechanisms, and the Article 6 rulebook lays the groundwork for them to further develop and thrive. In parallel, the growth of the voluntary carbon market continues to impress, driven by strong interest from the private sector to support critical mitigation and adaptation projects. These developments may ultimately lead to greater overlap between compliance and voluntary markets. This session will explore how both worlds could interact and converge.

Moderator:
Mary Grady, President & CEO, Environmental Resources Trust (ERT) & Executive Director, American Carbon Registry (ACR)

Speakers:
Molly Peters-Stanley, Negotiator, International Carbon Markets - U.S. Department of State
Alexia Kelly, Director, Net Zero + Nature - Netflix
Leslie Durschinger, Founder & CEO - Terra Global
Paula Vanlaningham, Global Head of Carbon – S&P Global Platts
Janet Peace, Head of Advisory Services - Anew Climate

Addresses by:
Dirk Forrister, President & CEO - International Emissions Trading Association (IETA)
Dirk Weinreich, Co-Chair - International Carbon Action Partnership (ICAP)

Bayer & Bayer Environmental Science
Bayer is a global enterprise with core competencies in the life science fields of health care and nutrition. Its products and services are designed to help people and the planet thrive by supporting efforts to master the major challenges presented by a growing and aging global population. Bayer is committed to driving sustainable development and generating a positive impact with its businesses. At the same time, the Group aims to increase its earning power and create value through innovation and growth. The Bayer brand stands for trust, reliability and quality throughout the world. In fiscal 2021, the Group employed around 100,000 people and had sales of 44.1 billion euros. R&D expenses before special items amounted to 5.3 billion euros.

Federal Ministry for Economic Affairs and Climate Action, Germany (BMWK)
The major trends of the 21st century, notably globalisation, digitisation, demographic change, recent developments within the EU, and the energy transition all represent major challenges for German business to tackle. If we are to successfully address these issues, we need to make our social market economy shipshape for the future. This is the over-arching task for the Federal Ministry for Economic Affairs and Climate Action.

Carbon Finance Labs
We are finance and technology professionals who want to be part of the climate change solution. We have worked in carbon finance, technology and commercial development. Our small team’s impact comes from a global network of resources and applied knowledge built over decades in the carbon, finance and technology sectors.

Contact: David Ungar | david.ungar@carbonfinancelab.com | www.carbonfinancelab.com

Chevron
Our success is driven by our people and their commitment to getting results the right way – by operating responsibly, executing with excellence, applying innovative technologies and capturing new opportunities for profitable growth. Affordable energy is a catalyst for economic growth and prosperity. Our company’s values drive us to provide that energy responsibly while protecting the environment and working with our partners to strengthen communities. Our success is tied to the success of the communities where we operate. We conduct our business in a socially responsible and ethical manner, protect people and the environment, support universal human rights, and benefit the communities where we work.

Sweep

Today, the world is “off-track” in both managing and adapting to climate change. While many companies have set sustainable goals for the long-term, they lack the immediate ability to understand their carbon data and the tools to act on it, leaving their futures hanging in the balance. By confronting carbon, Sweep is helping all companies to be on-track in their climate journey. Sweep specializes both in the ability to use the data to map your carbon emissions, and to help you realize feasible goals while managing future growth. We want companies to see carbon not as a limitation, but rather as a creative force for innovation and positive growth. In doing so, we believe we can help every business be on-track to becoming ‘A Forever Company’.

Contact: Renaud Bettin | rbettin@sweep.net | www.sweep.net
Verra
Verra is a nonprofit organization that operates the world’s leading carbon crediting program, the Verified Carbon Standard (VCS) Program, as well as other standards in environmental and social markets. Verra is committed to helping reduce greenhouse gas emissions, improve livelihoods, and protect natural resources by working with the private and public sectors. We support climate action and sustainable development with standards, tools, and programs that credibly, transparently, and robustly assess environmental and social impacts and enable funding for sustaining and scaling up projects that verifiably deliver these benefits.

Contact: David Antonioli | DAntonioli@verra.org | www.verra.org

Xpansiv
Xpansiv provides the market infrastructure and data platform for carbon, renewable, and digital energy commodities. These Intelligent Commodities bring transparency and liquidity to markets, empowering participants to value energy, carbon, and water to meet the challenges of an information-rich, resource-constrained world.

BeZero Carbon
BeZero Carbon is a global ratings agency for the Voluntary Carbon Market. Its carbon credit ratings allow all market participants to price and manage risk. BeZero’s carbon ratings and research tools support buyers, intermediaries, investors, and carbon project developers. Founded in April 2020, its 100 strong team combines climatic and earth sciences, sell-side financial research, earth observation, machine learning, data and technology, engineering, and public policy expertise. Its head office is in London, with its people working across five continents.

Carbon Engineering
Carbon Engineering was founded in 2009 with a clear mission – to develop and commercialize a technology that captures CO2 directly out of the atmosphere at megaton-scale. We’re focused on the global deployment of megaton-scale Direct Air Capture technology so it can have the greatest impact on the huge climate challenge. Our team and partners around the world are working to deploy Direct Air Capture facilities that can capture one million tons of CO2 per year each – which is equivalent to the carbon removal work of approx. 40 million trees.

Contact: Kel Coulson | kcoulson@carbonengineering.com | www.carbonengineering.com
EKI Energy Services (Enking International)
We are the pre-eminent brand in the realm of “climate change, carbon credit and sustainability solutions” across the globe. We aspire to render strategic solutions for helping businesses and organizations to achieve their climate ambition. Our objective is to rehabilitate the Earth to a low carbon and climate resilient global economy. We work for the planet to produce positive outcomes and much-needed answers to help you with all your sustainability issues.
📞 Contact: Anjali Singh | anjali.singh@enkingint.org | www.enkingint.org

Patch
Patch is building the infrastructure for a sustainable economy by enabling gigatonne scale carbon removal. With Patch, companies can embed climate action into their own products, neutralizing the carbon impact of everyday transactions like shipping, travel and financial services, or neutralize the unavoidable emissions within their operations and supply chain. From an API-integration to direct purchase, Patch is the carbon credit platform for businesses and consumers to seamlessly contribute to trusted removal and reduction projects at any scale.

SustainCert
From vision to impact - SustainCERT was founded as an independent, standalone organization in 2018 by the Gold Standard Foundation with one ambition: use digitization to disrupt the carbon verification industry and make credible climate action the new business as usual. We are about developing digital verification solutions to bring credibility to climate action. SustainCERT brings the best of both worlds. Our deep climate expertise and digital solutions ensure impact are real, realized and in line with global standards or recognized best practice.
