CLIMATECARE
A certified B Corporation, ClimateCare is a multi award winning organisation, well respected as an expert in delivering climate and development impacts/outcomes from single project interventions through its unique Climate+Care approach.

In recent years ClimateCare has won numerous awards including a Queens Award for Sustainable Development, Best Project Developer – Public Health, and Carbon Finance Transaction of the Year.

We work with public and private sector clients to deliver award-winning Climate+Care Programmes designed to reduce emissions, tackle poverty, and improve health, whilst delivering value for the organisations involved.

We have a unique combination of project development and financial expertise, a focus on robust, measurable results and a 20 year track record of successful projects with a low cost per impact delivered.

“We combine the vision of a social enterprise and the commercial experience of an investment bank.”
A global presence, with offices in the UK, Kenya and India, and a network of projects that cut carbon and improve lives across the world.
OUR STORY

ClimateCare is founded in Oxford, following the Kyoto Protocol.

- In 1997, ClimateCare is founded in Oxford, following the Kyoto Protocol.
- In 1998, ClimateCare uses carbon finance to restore a rainforest in Uganda.
- In 2007, Our cookstoves methodology is adopted by the Gold Standard, channeling new finance to clean cooking programmes.
- In 2008, ClimateCare lead authors a new Gold Standard methodology to bring new finance to safe water provision.
- In 2010, The ClimateCare management team buy back the business from J.P. Morgan.
- In 2011, We are awarded The Queen’s Award for Enterprise in Sustainable Development.
- In 2014, ClimateCare becomes a B Corporation.
- In 2015, We will report back on our targets to cut 20 million tonnes of CO₂ and improve 20 million lives by 2020.
- In 2018, We are awarded The Queen’s Award for Enterprise in Sustainable Development.
- In 2020, ClimateCare wins the B Corporation Best for the World award.

Climate action sits at the heart of delivering the UN Global Goals.

Our Climate+Care approach helps meet multiple global goals quickly, cost effectively and at scale.”
OUR IMPACTS SO FAR

To date we have deployed over $100 million to deliver social and environmental impacts:

3.7bn
LITRES OF SAFE WATER
We’ve provided 800,000 families with safe water, protecting them from diseases like typhoid and cholera.

$136m
ANNUAL SAVING ON FUEL BILLS
We’ve provided 2 million families with cleaner, safer methods of cooking that also save them on average $68 every year on fuel bills.

1.3m
PEOPLE WITH CLEAN ENERGY
We’ve provided 1.3 million people with clean, reliable energy, helping to grow local business, provide essential healthcare and education and improve life at home.

$16.5m
LIVES IMPROVED
In total our work has improved life for 16.5 million people so far - from providing safe water and reliable energy, to improved health and disposable income.

10.5m
PEOPLE WITH MORE TIME
We’ve increased productive time by providing efficient cooking, energy and safe water solutions.

$16.5m
TONNES OF CO₂ REDUCED
Since 1997 we have reduced 20.6 million tonnes of CO₂, helping to fight climate change.
“Over the last twelve years we have enjoyed a positive and successful relationship with ClimateCare. The team consistently deliver projects that provide community benefits as well as carbon reductions and that match our brand position as a leader on social responsibility.”

“ClimateCare ensure we invest our budget in projects that deliver robust and tangible results. We are excited about continuing our work with the team to drive significant and meaningful change as we work towards a more sustainable future.”

“The Swedish Government is committed to supporting projects that deliver measurable outcomes for communities as well as the environment. We are proud to support ClimateCare’s clean cookstove programme in Ghana.”

“Investing in high quality carbon and development projects, like those that ClimateCare offers, should be an essential part of the CSR and carbon management strategy of every responsible business.”

“It was a pleasure to see ClimateCare and the stove in our office. This is a great way of bringing the project to life by giving out staff a real life visual of what Arup are invested in and how it will go on to help so many people. It is a platform for similar future projects and something we can truly proud of.”

“ClimateCare’s skill and experience allows us to offer members a world-class carbon offset program that we can trust to deliver real positive outcomes for the environment and local communities. We are delighted to work with them and encourage more airlines to get involved and take advantage of this expert resource.”

“If you’re going to invest in offsetting carbon emissions, why wouldn’t you do it with projects that can make a measurable difference to people as well as the environment?”
THANK YOU
