

PARTNER SPONSOR AGREEMENT

Introduction

Co-organised by the International Energy Agency (IEA), International Emissions Trading Association (IETA) and Electric Power Research Institute (EPRI) on 1–3 December 2026 at the IEA Headquarters in Paris, this 26th Annual Workshop is a special edition being held in collaboration with the G7 Carbon Market Platform Strategic Dialogue, organised by the G7 French Presidency.

Over the years, this workshop has become a flagship event in the carbon market calendar, bringing together senior government representatives, corporate leaders and leading experts from around the world. It provides a key forum to exchange views on the latest developments in carbon markets and emissions trading systems. The programme combines presentations based on recent research with interactive discussions.

Held in-person only, with mandatory pre-registration confirmation by the organisers to participate, and under the Chatham House Rule.
